BO1 History of Mathematics Lecture V Successes of and difficulties with the calculus: the 18th-century beginnings of 'rigour' Part 1: Publication, acceptance, and successes

MT 2021 Week 3

▲□▶ ▲□▶ ▲□▶ ▲□▶ ■ ●の00

Summary

Part 1

- Publication and acceptance of the calculus
- Some successes of the calculus

Part 2

Functions

Part 3

- Problems with the calculus
- Some responses: beginnings of 'rigour' in Analysis

▲□▶ ▲□▶ ▲□▶ ▲□▶ ■ ●の00

Reminder: a comparison from lecture IV

Newton (1664-65):

rules for quadrature rules for tangents 'fundamental theorem'

dot notation

physical intuition: rates of change

PROBLEM: vanishing quantities *o* Leibniz (1673-76):

rules for quadrature rules for tangents 'fundamental theorem'

differential notation

algebraic intuition rules and procedures

PROBLEM: vanishing quantities du, dv, ...
