

C4.1 Further Functional Analysis

There are 4 consultation sessions for C4.1. My main plan for these sessions is to go over the non-bookwork parts of the 2017 and 2021 exams (since these solutions are not available on the institute website). I will also devote time to answering any questions on the course material or looking at other exam questions that you would like to see covered. Please send such questions to me by email (stuart.white@maths.ox.ac.uk) no later than 24 hours before the class.

By default these classes will be in person. For those of you unable to attend in person, I will be happy to run the class by teams - please email me at least 24 hours in advance in this case.
