

Computational Mathematics Demonstrators MT weeks 3-8, HT weeks 1-2

Attendance at the sessions is mandatory. If, for some reason, you are unable to attend your allocated sessions you should choose an appropriate replacement session (even-week students should be aware that you cannot postpone until the following week). You should email your allocated demonstrator and the demonstrator for the session you wish to attend instead, in the same email, to make the request. Both demonstrators will need to agree. If not, for example if a session is full, then you will need to choose an alternative and repeat the request.
